III. First Aid Procedures

Ingestion: Drink warm water, milk, or activated charcoal and induce vomiting by touching back of throat with a finger. Consult a physician.

Inhalation: If moderate discomfort to throat or nose, remove to fresh air and support respiration. Call physician if discomfort persists.

Eyes: Flush eyes with water for 15 minutes. Call physician if discomfort persists.

Skin: Wash with soap and water if aggravation occurs. Call physician if discomfort persists.

IV. Fire Fighting Measures

Extinguishing Media: Water Spray - material is essentially non-flammable

Special Fire Fighting Procedures: Do not breathe fumes. Wear self-contained breathing apparatus.

Unusual Fire Hazards: If heated to decomposition, will give off toxic fumes.

V. Accidental Release Measures

If Spill Occurs: If material is uncontaminated, collect into clean container for use. If contaminated, scoop into containers for disposal. Inform

authorities immediately if sewers or water courses are contaminated.

VI. Handling and Storage

Store in a cool dry area. Keep out of reach of children and domestic animals.

VII. Exposure Controls/Personal Protection

Ventilation Protection: Provide local or general ventilation to keep dust below ACGIH nuisance dust limit of 10 mg/M³. Applicators should stand upwind.

Respiratory Protection: NIOSH/MSHA approved respirator should be used if dust exposure exceeds level of 10 mg/M³.

Protective Clothing: None usually required. Long sleeves and gloves should be used by those with sensitive skin.

Eye Protection: Use of safety glasses is recommended.
