**III. First Aid Procedures**

---

**Ingestion:** Drink warm water, milk, or activated charcoal and induce vomiting by touching back of throat with a finger. Consult a physician.

**Inhalation:** If moderate discomfort to throat or nose, remove to fresh air and support respiration. Call physician if discomfort persists.

---

**IV. Fire Fighting Measures**

---

**Extinguishing Media:** Water Spray - material is essentially non-flammable

**Special Fire Fighting Procedures:** Do not breathe fumes. Wear self-contained breathing apparatus. Remove from area of fire at first opportunity.

**Unusual Fire Hazards:** If heated to decomposition, will give off toxic fumes.

---

#### V. Accidental Release Measures

---

**If Spill Occurs:** If material is uncontaminated, collect into clean container for use. If contaminated, scoop into containers for disposal. Inform authorities immediately if sewers or water courses are contaminated.

---

#### VI. Handling and Storage

---

Store in a cool dry area. Keep out of reach of children and domestic animals.

---

#### VII. Exposure Controls/Personal Protection

---

**Ventilation Protection:** Provide local or general ventilation to keep dust below ACGIH nuisance dust limit of 10 mg/m<sup>3</sup>. Applicators should stand upwind.

**Respiratory Protection:** NIOSH/MSHA approved respirator should be used if dust exposure exceeds levels of 10 mg/m<sup>3</sup>.

**Protective Clothing:** None usually required. Long sleeves and gloves should be used by those with sensitive skin.

**Eye Protection:** Use of safety glasses is recommended.
